

The Circle

James: lyrics.
James: guitar, 12 string, bass, banjo, vocals.
Nigel: drums, backing vocal.
John, lead guitar breaks, backing vocal.
J Mavro: harmonica fills.

When life starts getting you down
and you feel that things are tough
when all that's going on around you
makes you feel you've had enough
when you ask for help and getting none
those are the days that are really rough
when the plans and dreams you thought you'd made
have all gone up in a great big puff

please will you come and join me now
let's sit around in a ring
we'll form a circle, hand in hand
and sing, sing, sing
join me in this song
join with me my friends
let's see if we can shake those blues
and reap some dividends

Once upon a time the days
were mostly looking good
we lived a peaceful life
and did all the things we should
then out of the blue the trouble came
shook the ground on which we stood
we staked our claim, tried to fight back
with everything we could

please will you come and join me now
let's sit around in a ring
we'll form a circle, hand in hand
and sing, sing, sing
join me in this song
join with me my friends
let's see if we can shake those blues
and reap some dividends.

It's great that you have joined me now
and sat around in a ring
we've formed a circle, hand in hand
to sing, sing, sing
thanks for joining in this song
to show you are my friends
let's see if we can shake those blues
and reap some dividends.
